GLORIOUS GARDEN CRITTERS *WINDSPORT Displays Life In The Garden*

AUSTIN, TX. (December 8, 1998). . . One bug, two bugs, three bugs, four! It's bugs galore at WINDSPORT, INC., the highly-regarded manufacturer of decorative windsocks, flags, banners, and garden decor, with the company's collection of 3-dimensional windsocks characterizing familiar garden insects.

"We're quite proud of our bug collection," grins Cathy Barber, president of the 15-year old company, "especially in light of the recent Dreamworks and Disney films, *Antz* and *It's A Bug's Life*. Our bugs are beautiful indoors and outdoors, perfect for any room, garden, retail establishment, office, classroom, or any space that needs a little whimsy. I guess one might say that we've been bitten by the *bug!*"

Who's that lady? Windspport's *3-D Ladybug* (D315) is the lady in red. Complete with dotted dress, Ms. Ladybug captures the current with multi-colored streamers and measures 57" in length. She has a suggested retail price of \$ 49.95.
